

**REMARKS**

This amendment to the claims is intended to conform the independent claims to the discussions held with Applicants' representative on December 29, 2009.

The independent claims were to be amended by adding thereto the features recited in dependent claim 4. It is respectfully submitted, the Examiner's Amendment omits an important word that had been present in claim 4 but had not been incorporated into the Examiner's amendment. The present Amendment Under 37 CFR 1.312 corrects this omission.

Respectfully submitted,
